MEMORANDUM FOR: Deputy Director for Intelligence  
Associate Deputy Director for Intelligence

FROM:

Chief, Arms Control Intelligence Staff

25X1

SUBJECT:

Session with PFIAB Member

25X1

1. On Thursday afternoon, 5 January, Dr. Jerry Johnson of the President's Foreign Intelligence Advisory Board (PFIAB) stopped by for an intelligence update that he and I focused mainly on compliance-related issues. Together with [redacted] I ran through the seven current compliance issues. We also went over the new issues waiting in the wings [redacted]

2. Dr. Johnson indicated that prior to coming over, he had had some doubt as to whether another session with PFIAB members was warranted on verification issues, but after hearing from us what was new, he had concluded that such a session would indeed be useful. He said that he would seek to set up a session but wasn't sure of the date, although he seemed to suggest the early- to mid-February time frame. [redacted]

25X1

3. Among the other items discussed, I pointed out to Dr. Johnson that we had already initiated one of the suggestions made by Dr. Johnny Foster. This idea was for an alerting system to rouse the policy community when intelligence suggested that a compliance issue was about to break. I indicated such a procedure was now in place and that Dr. Manfred Eimer of ACDA and I, in our capacities as co-chairmen of the ACVA Analysis Group, had issued several such alerts since we last discussed this issue with PFIAB in 1982. We then chatted about the intelligence relating to several of those "new" compliance issues.

25X1

4. I believe it is clear that PFIAB will want to see me in February on such issues; we are preparing. If I can do more for you on this or other matters, please call. [redacted]
